Let's now calculate the first semester's GPA

Enter 1 to calculate the Semester's GPA and CGPA, Enter 2 to exit :

1

Enter the Total credits for the current semester :12

Enter the total number of course for the current semester :3

Now Enter the required details of the courses completed to calculate the GPA of the semester

Enter 1 if the course is a Theory course(LTP/LT) else if the course is a Laboratory/Projcet(PJ) based enter 2 :

1

Enter the course credits :4

Enter your cat1 marks of this course out of 50 :31

enter your cat2 marks of this course out of 50 :40

Enter your Term-end marks of this course out of 100 :90

Enter your internal marks out of 40:40

Enter your attendance percentage :100

Enter your class Average out of 100:80

Enter the standard devaition of the class :9

Enter 1 if the course is a Theory course(LTP/LT) else if the course is a Laboratory/Projcet(PJ) based enter 2 :

1

Enter the course credits :4

Enter your cat1 marks of this course out of 50 :29

enter your cat2 marks of this course out of 50 :37

Enter your Term-end marks of this course out of 100 :78

Enter your internal marks out of 40:40

Enter your attendance percentage :100

Enter your class Average out of 100:78

Enter the standard devaition of the class :10

Enter 1 if the course is a Theory course(LTP/LT) else if the course is a Laboratory/Projcet(PJ) based enter 2 :

1

Enter the course credits :4

Enter your cat1 marks of this course out of 50 :17

enter your cat2 marks of this course out of 50 :45

Enter your Term-end marks of this course out of 100 :84

Enter your internal marks out of 40:40

Enter your attendance percentage :100

Enter your class Average out of 100:75

Enter the standard devaition of the class :11

The course credits along with their Grade and Grade points are displayed below

[4, 'A', 9, 4, 'A', 9, 4, 'A', 9]

The GPA of the current semester is : 9.0
